Prices continued to move in a positive direction at today's South Island Wool Sale. Significant increases for good colour fleece and second shear types on the back of a softening \$NZ by 3.7% assisted the price movement. With China in continued lock down we are seeing increased inquiry from Europe and India, but continued issues with shipping is still causing issues amongst Exporters. A small offering of New Season Mid Micron wools saw prices Erratic. The market is certainly reacting positively to better coloured wools coming forward.
